

Dear Valued Partners,

We at Nespresso are committed to bringing only the best value solutions for your business needs, offering exceptional coffee quality, innovative machines, and exceptional after-sales service.

Due to the recent global situation, specifically the fluctuating exchange rate between IDR and the Swiss Franc along with rising shipping costs, we find it necessary to make adjustments to our Retail Prices. This decision ensures our continued commitment to providing value while navigating these challenging circumstances.

Effective March 1st 2024, our new pricing structure will be implemented. However, in recognition of our enduring partnership, we extend the opportunity for you to purchase at the current prices until the expiration of any existing signed contracts.

Please be assured that we have kept any increases to an absolute minimum.

For further information and assistance, please do not hesitate to reach out to your dedicated Sales Representative.

Best Regards,

Mark Senior
Senior Vice President
